

## Ten days in the United Kingdom for teenagers aged 14-18

This unique course in the U.K., for boys and girls (14-18 years), will give an insight into what it is like to work within the aviation industry.

**Availability for the 13<sup>th</sup> July through 23<sup>rd</sup> July 2022 summer program** where students will experience many aspects of life as a pilot, including flying lessons on light aircraft, aerobatic flying lesson, helicopter flying lesson, Boeing full motion simulator, visit to an international airport, talks with pilots and emergency training with British Airways. Students will also learn about the maintenance and engineering side of the industry by visiting maintenance facilities and talks with aviation engineering professionals. There will also be visits to aviation museums, an airline headquarters, as well as some exciting recreational activities. The students' accommodation will be in Moulton, Northampton at Moulton College, located near Sywell Aerodrome where the flying lessons will take place.

This is an excellent way to help young people to decide whether they would like a career in aviation and provides a wonderful experience for the participants. They will go home with flying experience, a broad understanding of the aviation industry, a view of aerospace engineering, a broader outlook on life having spent time with other kids from around the world, not to mention having a lot of fun during their time in England.

The price is £4,350 (GBP) inclusive of VAT, which includes accommodation, local transport, and all activities, excluding flights to London and airport transfers.
